First Name	Last Name	Why are you interested in joining the OCPEH Leadership Team?	How will your background, talents, and skills help Orange County end homelessness?	Leadership Team members have a short list of expectations - please indicate your willingness to do the following:	Race
Steven	Campbell	I feel like I am at a point in my life that giving back and helping others is of utmost importance. This is a great opportunity for me to help a great cause. I also have a son diagnosed with schizophrenia whom I worry about becoming homeless should he ever decide to stop with his medication. Working with this organization will help give me insight on dealing with him should homelessness ever become his fate.	I work with the analysis of data daily basis. There are lots of data points on homelessness that I could help process. I also have close relationships with churches throughout Orange County that may be willing to collaborate with OCPEH.	all checked	
Stacey	Curelop	I've always been interested in ending homelessness	I'm a music leader and work with the Youth group at my church (we're always looking for volunteer opportunities). I've been involved in music therapy by singing in the UNC hospital "door-to-door" program. I've been a project manager for 5+ years and I'm very organized. I had a small business of home staging and enjoy making a house a home.	all checked	
Megan	Johnson	In my current role as the Crisis Unit Supervisor for the Chapel Hill Police Department, we have regular and frequent contact with the homeless population in our community. As a unit we work daily on a micro level to help these individuals minimize current crisis. My goal with joining the OCPEH Leadership Team is to partner with other leaders in the community to work on a macro level to address homelessness in our community.	Prior to gaining my Master's degree in Clinical Mental Health Counseling, I spent over 10 years in marketing, business operations, and project management. The skills that I acquired during this time of my career have allowed me to continue to take on leadership roles in our current field. I believe they will continue to be relevant and subsequently position me to take an active role on the OCPEH Leadership Team to drive change.	all checked	Caucasian/White
Caryn	Lynn	I believe it is important to give back to the community and would like to be involved in helping to end homelessness	I am a nurse that sees the impact of homelessness on the healthcare system and would like to be involved in hopefully coming up with solutions to end homelessness and to help those that are homeless to access medical care	none checked
